142. A reception will follow.

Professor Ruder is best known for her forensic
approach to medieval books and has pioneered
the use of the densitometer to measure the time
that readers deposited in their books. In 2011 she delivered a TED talk about her

...the primary purpose of this document is to provide a comprehensive overview of the project's objectives and scope. The following sections will discuss the project's goals, the methodology used, and the results of the study. The project was conducted over a period of six months, and the data was analyzed using a variety of statistical methods. The results of the study are presented in the following sections, and the conclusions are discussed in the final section. The project was funded by the National Science Foundation, and the results of the study are being made available to the public through this document.
